## My Chat

It is a space for exchanging messages among class members. It facilitates direct communication and the resolution of doubts.

#### How to generate communication with students?

Communication takes place through the platform where students interact by responding to what the teacher has posted. They can also reply to their peers' comments, and these messages may include images, videos, lists, and more.

With the help of the toolbar, you can format your responses as desired, including font type, size, color, and more.

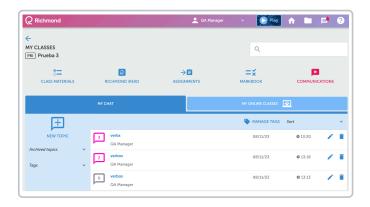

To get started, follow these steps:

- 1. Click on New Topic.
- 2. In the popup window, enter the **Title**, **Message**, and select the **Label** and **Archive** the message (only if required).
- 3. Use the **Toolbar** to enhance the formatting of your message.
- 4. Click on Create.

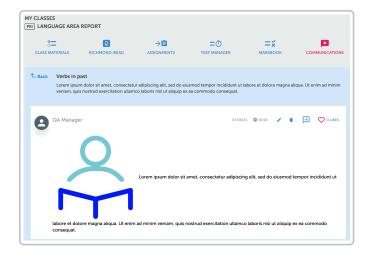

Your browser	does not	support	HTMI 5	video

The created messages will be visible on the home screen. You can **Edit** them (pencil icon) or **Delete** them (trash can icon) by selecting the corresponding option.

When there is a response to the posted message, it will be notified in the text bubble next to the task title.

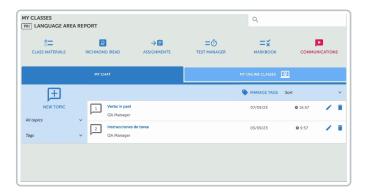

To view the responses, click on the **Title of the topic**.

There are options available to filter the messages, which optimize the search for available content.

You can use the filter by selecting the desired option:

• By Topic: Filter based on the names of the created topics.

• By Label: Each topic can be assigned a label, for example: Tasks, Notifications, Tests, etc.

To create **Labels**, click on **Manage Labels**, assign a name, and choose a color to differentiate them.

# **My Online Classes**

Provides notifications about scheduled virtual classes. It informs students about upcoming sessions on platforms like Microsoft Teams, Zoom, or Google Meet, offering details such as the access link and schedules.

To create an online class, follow these steps:

- 1. Click on New Online Class.
- 2. In the popup window, enter the **Title**, **Instructions**, select the **Start Date**, the **Available Schedule**, the **Tool** you'll use to conduct it (**Microsoft Teams**, **Google Meet**, or **Zoom**), and the **Students**.
- 3. Click on Submit.

Your browser does not support HTML5 video.

The created classes will be visible on the home screen.

To access the class, click on the title, and it will open the corresponding tool.
