System Messages

This option displays messages that the system sends automatically, providing relevant information about tasks and assessments assigned to students.

Received, sent, and system messages can be deleted by selecting the message or messages you want to delete and then clicking on the **Delete Selected** option.

This action cannot be undone. The main features of **System Messages** are as follows:

- **Automatic Information:** These messages are generated by the system to provide important details about tasks and assessments.
- **Aid in Management:** System messages aim to facilitate task and assessment management by keeping students informed about deadlines, requirements, and other relevant instructions.

The platform allows for the deletion of received messages following these steps:

- **Message Selection:** The user can select one or multiple messages they want to delete. This can be done in the sections for received, sent, or system messages.
- **Option Delete Selected:** After selecting the messages, click on the **Delete Selected** option. This action will permanently delete the selected messages.

The platform displays a warning that this action cannot be undone. This ensures that the user is aware of the permanent deletion of the messages.
